

COPPERFORM CONTRACTOR

At Copperform we appreciate that sometimes price can be the most important factor when choosing which units to buy, and that is why we have developed a range of units that take this into account.

The Copperform Contractor vessels are still manufactured from stainless steel but come with a 'no frills' basic valves set and packaging.

For more details contact us directly.

The copperform contractor comes complete with:

Stainless steel body, A two year guarantee against faulty materials, all subject to the unit being annually serviced and log book (supplied) completed correctly, Separate inlet controls (PRV, EXP relief & non-return valves), Temperature and pressure release valve, Tundish, Expansion Vessel, Immersion heater (1no Indirect & 90 litre direct, 2no on 120 litre Direct and upwards), 2 port valve, Dual thermostat, Zintec corrosion proofed steel outer casing with durable white paint finish, No frills packaging, Full labled
